To

The Hon'ble Minister,
For Medical and Public Health
Government of Madras, M.A.D. No. 8-73 JUN 1952

Subject:- Registration of Ayurvedic Medical Practitioners- Rule I(iv) of Medical Registration Rules.

Sir,

I submitted my application in prescribed form with all necessary records to the Central Board of Indian Medicine Madras in the year 1946 when the Rule I(iv) of the Medical Registration rules was in current. Afterwards, for several of my communications to the board in the matter, I received one or two replies informing me that my application was under consideration. At last, after an interval of about four years or more, I received a Memo No.49/SK/50 dated 16-9-1950 from the Central Board of Indian Medicine, Madras informing me that Rule I(iv) of the Registration Rules has been deleted and that I should apply for refund of the registration fee of Rs15/- (Rupees fifteen only) deposited by me, within three months from the date of receipt of the said intimation. Accordingly I applied for refund of the said amount in the very month of September 1950.

But to my utter surprise, I haven't received the refund of the same as yet. For my several reminders to the Board in the matter I have received a memo No.49/SK/D/51 dated 20-10-1951 from the Central Board of Indian Medicine reading as " You are informed that necessary action is being taken and the advice for refund of registration fee will be issued in due course". Though more than 7 months passed now, no action seems to have been taken for issue of the refund advice. In this connection, with much sorry, I wish to add a few lines below, for which I may be pardoned if it is not in proper manner.

Had the Government have the intention of defeating Rule 1(iv) of the Medical Registration Rules, they need not have extended the period of enforcement of the said proviso, and call for the application from the poor medical Practitioners. And also that the Government has come to the decision of collecting the said provision only after four or five years after extending the time. The Government ought to have, in the light of justice, considered the applications of medical practitioners who have applied for registration before the Government have come to the decision of collecting the provision. Defeating the provision by the Government without due consideration of the applications already received has made a very great injustice to the poor medical practitioners who have lost confidence in the Congress Government and supported the Government in every respect whole-heartedly. It is great disappointment attached to the Ayurvedic Medical System by the Government of our State while the other States of this Union uphold the Ayurvedic System and encourage the same in the best interests of their subjects. By the decision of our Government, the poor Medical Practitioners had to experience such troubles and spend a good money for getting necessary proofs and documents with regard to their applications which, at last, have been rejected.

Non refund of the registration fee in 1940 is another injustice committed to the poor Medical Practitioners by our popular Government. Some of the applicants are not even alive to get the money refunded to them.

Under the circumstances mentioned above, I, on my own behalf and on behalf of my professional brethren, request your honour to be kind enough to take necessary action either for reversal of the decision of the Government or for refund the restriction fee at the very earliest convenience and thus award justice to the poor and less abiding subjects of the State.

I have hope for the future.
